WHITE FLAG FILMS presents

## REPERCUSSIONS

A 50 min. documentary by filmmaker Anton Fischlin

Playing at the Orlando Science Center, FLA on the **30th of September 2007**

**REPERCUSSIONS** invites us to discover the solutions humanity has put forth to face environmental challenges at World Expo 2005 Aichi Japan, entitled "Nature's Wisdom". Imagine a world where humans and technology can live in harmony with nature. On the site, a great effort was made towards a zero waste objective and clean, renewable energies as well as environmentally sound transport were implemented on a broad scale. An ecologically respectful way of life is today, more than something to dream about, but something truly achievable.

In 2005, the short version of **REPERCUSSIONS** won the NFB Parole citoyenne award for Best Documentary at the Caméra verte short film festival. In 2007, the long version of Repercussions received the Best Documentary award in the category "Alternative Energy" and was presented as the closing night film at the EarthVision Film Festival in Santa Cruz, California.

SEATTLE, WASHINGTON – Hazel Wolf Environmental Film Network – **World Premiere**  
SANTA CRUZ, CALIFORNIA – EarthVision Film Festival – Closing film – **Best Documentary – Category « Alternative Energy »**  
PORTNEUF, QUEBEC – Festival de films de Portneuf sur l'environnement – **Official competitor**  
SEATTLE, WASHINGTON – 911 Media Arts Center – **Green Film Series**  
MONTREAL, QUEBEC – Lion d'Or – **Montreal Premiere**

**ANTON FISCHLIN**, is part of the Montreal television and movie scene since 1997. His work as a sound editor has won him several nominations and awards; the most noteworthy being a Géméaux award in the category Best Documentary Sound for the documentary Arctic Mission by Jean Lemire. He has also worked on C.R.A.Z.Y. (Jean-Marc Vallée), Moi j'me fais mon cinéma (Gilles Carle), and Le cabinet du docteur Ferron (Jean-Daniel Lafond).

**WHITE FLAG FILMS**, founded by Anton Fischlin, is a young, dynamic, Montreal-based independent video production company. Its mandate is to explore environmental solutions and create positive exchange on contemporary world issues.
